Aim of Application

To, as a summer intern, create functional software on the bleeding edge of technology, using my programming knowledge in the real world. I want to use this opportunity to become a better programmer and get to see all the different parts of software development.

Primary competencies

- Outgoing
- Creative
- Willingness to learn
- Good at collaboration
- Passionate about graphic design and problem solving

Education

MSc in Computer Science

Lund University Faculty of Engineering

08/2019 – 06/2024

3rd year

Work experience

⌂ Developer, WeKnowIT

2021, Remote

As developer at a consulting company my work has consisted of various smaller tasks along with some larger projects, all of which have broadened my understanding of React and Wordpress. I have, for the first time, programmed in a work environment utilizing agile development. My time with frontend development at WeKnowIT has complemented my previous proficiency in backend development.

Mailman, Postnord

Summer 2018 & 2019, Stockholm

Transcriber, Sveriges television

2017 – 2019, Remote

I worked as a transcriber and logger for the swedish national television show "Född 2010" (Born 2010). This was an excellent opportunity to gain real work experience and to discipline myself to do things on time and in a satisfactory manner. I kept myself busy with work and school, yet managed to plan well and allocate time for both.

Participation in student life

D-guild at TLTH

Pepper 2021. One of the most important positions during the introductory weeks. It involves planning large activities with hundreds of participants, and creating a wholesome and welcoming atmosphere. Work extends throughout the year, by a group of ten. Cooperation and solidarity are key in tackling arising challenges.

Second Pub Manager 2020. This is a key position during the D-guilds frequent pubs. It has given me experience in managing smaller events as well as planning and working in a smaller group.

Introductions volunteer and mentor 2020. As a mentor during the introductory weeks at LTH I learned to work in a group and be responsible for activities that interest large groups of people with different backgrounds and interests.

UtEDischo Manager 2020. The UtEDischo is one of the biggest yearly events at LTH. Though it got cancelled due to the pandemic, planning persisted for multiple months. This provided me insight into the logistics of large events and projects. The manager position awards leadership experience.
